Multi-Family on 0 Acres

N/A, Kingston, NY

Welcome to this grand vintage Victorian in Kingston's midtown arts district, with great bones and eye-catching design touches. Artistic, expansive and adaptable describe this home with extra-high ceilings, a gorgeous staircase, sweet niches, original details and a stunning attic space. Upon entry, a gigantic pocket door separates the large foyer from the parlor (or first floor bedroom)? Upstairs is a mix of design styles (check out the 1980s hallway mirror!) that could be left as is or unified around your taste. Although most recently used as a large single family home with separate spaces, it is a legal two-family residence (and can be utilized this way again, see remarks). Other highlights include bright window bays, open porch, tidy brick 2-car garage, walk up attic for your imagination, and two full baths to round out the picture. This is a unique offering with room to make your mark in a central Kingston location.

Built in 1898
