Residential on 6 Acres

N/A, Olivebridge, NY

Rockwall Haven - Turn in between the trees and drive down a paved driveway with a pristine rock wall on your right to a meticulously kept four bedroom cape with wood floors, custom kitchen with stainless appliances and a breakfast bar, two first floor bedrooms and two huge bedrooms upstairs. A perfect work from home Den/Office/Library with a separate entrance and woodstove. The living room has a brick wood burning fireplace for that cozy feel on a cold winter night. The two-car garage leads directly into the house to shelter you from all the outside elements. The front and back decks both allow you to sit among the trees, listen to the birds, enjoy the rock walls, see a few bumble bees and to feel that wonderful country breeze. Utilities and Laundry are located downstairs in the walkout basement ready for a game room, yoga studio or whatever you can imagine. The outside is beautifully landscaped and has a post and beam workshop / studio just steps away from the main house. On the way you will pass through a rock wall to an area ready for your vegetable garden. There is an above ground pool to keep you cool on those hot summer days. The new roof is covered in leased solar panels, which keeps the electric bills low. Take a walk around the five plus acres and enjoy living among the trees.
