Residential on 0 Acres

N/A, Kingston, NY

A very desirable area in Kingston close to all amenities and major highways. Quiet home situated on a dead-end street in an area of similar homes. Home needs some updating but is in very good condition and has a lot of character, charm and potential. This home was a 3 bedroom but a wall was removed between 2 bedrooms to make a large primary bedroom with walk-in closet. There are hardwood floors on the first floor, formal dining room, cozy living room, kitchen with a door to a large enclosed rear porch/sunroom to sit and relax. The second floor features a full bath and 2 bedrooms which are carpeted. There is natural gas forced hot air heat and a gas hot water heater which is approximately 5 years old. Fenced-in rear yard with beautiful perennial gardens. Property sold "AS IS" and may need a new roof and updated electric. Don't miss out and schedule your showing soon.
