4 Bedroom, 2.50 Bathroom, 1,794 sqft
Residential on 1 Acres

N/A, Kingston, NY

Owner financing available! Looking for a project with charm, lots of square footage, a large yard and a great location? This could be it! Wonderful wood floors in both spaces, great visibility for home office possibilities, live/work options, lots of square footage for separate spaces or just use this as a single family home with a huge yard of over a half an acre. As you enter the vintage front door, you are greeted by a sweet and bright living room with an additional room beyond that holds a cozy woodstove. The kitchen to your left is large and can fit a table and chairs. There are 2 bedrooms on the main level and a large room that would make a wonderful primary bedroom (currently has no closet). Upstairs holds an open living room/kitchen area, bedroom and a bright bonus space. Just south of Kingston near the adorable village of Rosendale, this could be the worthwhile project you have been looking for! Also close to Uptown and Downtown Kingston. Much work has been started and property is being sold "as is".
